Effective December 22, 2008, the Washington Department of Fish and Wildlife will implement a new price schedule for Priority Habitats and Species (PHS) data and map products. See Order Form and Ordering Information PDF file on our web site at wdfw.wa.gov/hab/release.htm.

The cost of producing PHS maps and data for release to the public and other government organizations is recovered through the modest fees we charge requestors. These fees pay for staff time, equipment and material dedicated to producing these products. The new price schedule is a response to recent increases in our production costs. The fee increases helps insure that WDFW can respond to map and data requests in a timely manner with a quality product.

If you have questions contact us via phone at (360) 902-2543 or via e-mail at phsproducts@dfw.wa.gov.
